IMPORTANT MESSAGES CONTINUED

- Level Billing provides customers with a more consistent monthly bill based on average annual usage, as opposed to monthly usage (which can vary greatly). This process levels out your payments, helping you avoid billing surprises and seasonal shifts.
- Winter temperatures and home heating inefficiencies can lead to higher than expected energy bills. Did you know air leaks and inefficient HVAC systems can lead to an additional \$400 in home energy costs each year? We want to help you keep your energy costs under control and on budget with our online Bill Toolkit. Scan the QR code to learn more about energy efficiency programs in your area.
- **Payment must be made with cash or money order.**

TERMS AND DEFINITIONS

- **Customer Charge:** A monthly charge that covers a portion of the fixed costs required to provide electricity service that is not dependent on energy usage.
- **Energy Charge:** Covers the cost of the system utilized to generate and deliver electric service to customers.
- **Storm Restoration Offset:** Benefits associated with the financing of storm restoration costs.
- **Fuel Adjustment:** The cost of fuel needed to generate electricity and the cost of power purchased from other Companies.
- **Federal Mandated EAC Rider:** Costs to comply with federal air pollution regulations.
- **Municipal Franchise Fee:** Associated with payments required by municipalities giving the utility the right to operate within the municipality.
